Office Action Summary

DETAILED ACTION

This Office action is in response to the amendment filed October 3, 2002 in which claims 5, 6 and 12-20 were amended.

The rejections of the claims under 35 USC 112, first and second paragraphs are withdrawn in view of the amendment to the claims and/or applicant's arguments.

Claims 1, 3, 5, 9, 11, 13, 15, 19 and 21 are rejected under 35 USC 102(b) as being anticipated by Bennett (US 4,273,643) for the reasons of record.

Claims 2, 4, 10, 12, 14 and 20 are rejected under 35 USC 103(a) as being unpatentable over Bennett (US 4,273,643) for the reasons of record.

Applicant argues that Bennett fails to teach the addition of inert organic matter.

The examiner respectfully disagrees. Bennett teaches that the carbonaceous material includes bituminous coal, lignite, peat, trash, and/or sewage sludge (see col. 1, lines 67-68; col. 2, line 1). These materials include Applicant's carbonaceous material and inert organic matter. Applicant's step of providing a carbonaceous precursor material and lowering the agglomeration value of the carbonaceous precursor material to prevent agglomeration and caking reads on the mixture of carbonaceous materials taught by Bennett. Furthermore, it should be note that the claim language of claim 21, "adding up to about 20 weight percent of an organic additive" reads on zero.

Claims 6-8 and 16-18 are objected to as being dependents of rejected base claims but would be allowable if written in dependent form incorporating all intermediate subject matter. The prior art fails to teach or suggest that the roaster of the its invention includes a plurality of decks constructed of heat conductive non corrosive metal. The

prior art also fails to teach the use of injected steam to assist in the removal of the tar and producer gases.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
